Summary

I'm a computer science student at DAV University, Punjab, with a strong foundation in HTML, CSS, and JavaScript. I also have experience in responsive web design, ensuring that websites look great and function smoothly across a range of devices. Currently, I am expanding my skills in back-end web development. Connect with me to discuss potential collaborations or opportunities in web development!

Experience

C/C++ Developer

Personal Project

2021 - Present (2 years)

I developed a project in C++, where I implemented object-oriented programming concepts. Through these personal project, I have gained experience in software development, project management, and problem-solving.

Frontend Web Developer

Personal Project

2022 - Present (1 year)

While I have not yet worked in a company, I have gained valuable experience through personal projects. One of my projects involved developing a web application using front-end technologies such as JavaScript, HTML, and CSS. The website was focused on health issues, integrating APIs to provide real-time data and suggestions for prevention and management of common health problems.
